From the Hoo. R. B. Taney, Chief Justice of the United States.

"It is a work of much value and well executed. The beads under which the different Acts of Congress are sarranged, are well chosen and appropriate; and what is still more important, the Index, so far as I have been able to examine it, is complete. The beek bas evidently been prepared with much ears and judgment, and wild, I doubt not, be very accordable to the public."

From the Hon. James M. Wayne, Associate Justice of the Supre me Court of the United States.

"I have purposely postponed my acknewledgment to you for Mr. Brightly's Analytical Digest of the Laws of the United States, to cumble me to lest the fidelity of its association and its usefulness. Mr. Brightly has succeeded in brighing the Laws of the United States into a single volume, so that we may see not selly what the legi-lation of Congress has been, but what it is; with such marginal references to the Statutes at Large that the lest of the Digest may either be restlied or disproved, if any instance of the latter case be done. I have used the Digest constantly at the term of the Supreme Court. It has saved me much Brightly, and it deserves the special patronace of largyers and Brightly, and it deserves the special patronace of largyers and those who have no professional business, who are, nevertheless, those who have no professional business, who are, nevertheless, mader some obligations to have by them at all times the readlest means of learning what has been the legislation of the Congress of the United States. and chicken fanciers, and to improve the breed of the growth, size and power of laying eggs-also to cure all com-plaints incidental to the fowl race. It consists in soaking biscuit or bran, or any other food, in RADWAY'S READY RELIEF, and giving it to the fowls in their food. This experiment was fire made by Mr. DE LA TASTE on some sick and stinted chickens in a few days he discovered a wonderful change—the chickens thus fed became healthy, and had attained a growth in size, plumpness and beauty of plumpage double those of three months their elders. Since then, a number of gratiennen, ben fanciers, have tried the Ready Reflef upon their stock; and have fund it to answer to a charm. By the use of Radway's Ready Relief a common sickly chicken will in a few days outstrip in size, plumpness, beauty of plumpage and ferfillity, the most favorite breeds of Cochin China, Shanghae, Burampore, and other fancy breeds in the country. Old hens that have not laid an egg for breeds in the country. Old hens that have not laid an egg for mouths will lay regular every day.
